Developing proposals for Health Services and Delivery Research (HS&DR) programme and Public Health Research (PHR) programme seminar

This seminar, organised by the [Research Design Service North West](http://www.rds-nw.nihr.ac.uk) (RDS NW), is to highlight national funding opportunities for applied health and social care research. We aim to give researchers an insight into funding priorities, application processes and future plans, and an opportunity for dialogue with funding programmes and successful grant holders.

The main focus of the [HS&DR](http://www.rds-nw.nihr.ac.uk) programme is to produce rigorous and relevant evidence to improve the quality, accessibility and organisation of health services.

The [PHR](http://www.rds-nw.nihr.ac.uk) programme funds high quality research to evaluate non-NHS interventions intended to improve the health of the public and reduce inequalities in health. PHR research supports a wide audience concerned with improving public health and reducing health inequalities.

For more information and details on how to book a place visit the [seminar website here](http://www.rds-nw.nihr.ac.uk).
