NIHR HTA Efficient Study Designs Call: An information event

This event will offer an opportunity to gain a greater understanding of the HTA themed call on efficient study designs and their general role across NIHR funding programmes. It will provide information about the types of proposals that NIHR is keen to encourage, but will not be a forum for detailed methodological discussions.

Registration to this event is FREE and refreshments will be provided.

Dr. Peter Davidson, Consultant in Public Health and Head of Health Technology Assessment, will be joined by RDS advisers to give a presentation followed by a Q&A session.

In order to secure your place at one of these events please complete the [online booking form](#).

Events will be held at various locations/dates with the first event on 22 September 2015 in Bristol.

For more information and for details of the additional dates and locations, see the RDS NW website's [event page here](#).

For free research design and funding advice, download the [RDS NW advice request form here](#).
