## NIHR Researchfish

NIHR Researchfish is an external system that is being used by NIHR to collect information on the research activities that are undertaken by its award holders. On an annual basis, NIHR-funded researchers and trainees will be asked to submit data about their outputs, outcomes and impacts.

The current NIHR Researchfish data submission period is between 15 February and 23 March 2016. NIHR-funded researchers and trainees will be expected to provide details about their research activities since January 2015.

The NIHR will be hosting a live webinar 'Completing your Researchfish submissions for the NIHR' on Monday 14 March at 2pm.

This webinar is aimed at NIHR researchers who are expected to complete a Researchfish submission between 15 February 2016 and 23 March 2016.

For more details and to register for the webinar, please visit the [NIHR Researchfish information page](#).
