Developing funding proposals in applied health and social care: First grants

11 October 2018 - Lancaster

This free RDS NW event is for health and social care professionals and researchers in the North West of England who want to develop and submit a funding application.

- This event is intended for people who are less experienced at applying for research funding and may be considering their first research grant submission.
- This event is not suitable for anyone who has previously had a research grant.
- This event will focus on NHS and Social Care Staff or academic staff working with NHS staff to support them on their first grant.

Attending the event will help to make your application stronger and increase your chance of getting your research idea funded. For more information and to register [visit the event website here](#).

Latest RDS blog

Sometimes you just have to jump in and make a splash! Co-producing research with patients, carers and public partners

Do you think that 'co-production' is just the latest buzz word in research? This month we are celebrating the benefits, sharing good practice and demonstrating that co-production might be the quickest way to get your research recommendation implemented into practice. [Read the full blog here](#).

RDS NW website - not just for requesting advice

[Our website](#) not only provides [access to our free advice service](#) but also provide a lot of other information [about the service](#) and [self-help resources](#) aimed at helping you develop a research funding application e.g. our [Public Involvement how-to guide](#) and our [clinical trials essential links](#) resource. Take a look around as there are many other resources available.

NIHR Journals Library incorporates new guidelines for reporting involvement of patients and the public in trials

The NIHR Journals Library has adopted a new set of guidelines providing researchers with support and advice to improve reporting of patient and public involvement in trials. See the [website here for more information](#).

For free research design and funding advice, download the [RDS NW advice request form here](#).
